ALU

ALU is an international company with over 30 years of experience catering to the retail world.

Under the vision of Abramo Manfrotto, ALU has grown to become an expert and innovative solutions provider that, since its founding, has partnered with many leading international retailers and premium brands.

Driven by quality, with commitment, fun and passion for our job, we collaborate to conquer the hearts and minds of our clients' most valuable consumers. We feel the joy of reinvention in the expression of ourselves, our clients, and our future.

Plot

Made of round 3 cm / 1 3/16" steel tubes and hidden aluminum pressure die casted connectors, Plot is a system with a strong freestanding nature and a technology soul.

Its inner technology and high reconfigurable power allow to obtain a huge list of freestanding items starting from tables up to dynamic solutions for the middle area.

Plot comes with a new finishing, cold galvanized steel, that gives to the system an industrial and elegant feeling at the same time.

TondoQuadro

TondoQuadro

Light and solid, sinuous and geometric, TONDOQUADRO is the newest ALU system made of round 3 cm / 1 3/16" and square 3,5 cm /1 3/8" steel profiles that combined together create multipurpose display configurations. The aluminum pressure die casted connector allows the slotted square profile to be positioned in four different directions. TONDOQUADRO is the very first ALU system to offer a seamless 183cm / 72" span, boosting hanging and shelving capacity. It can outfit your entire shopping environment or be your kiosk in a multi-branded space. TONDOQUADRO's accessories transform a static unit into a dynamic display, playing with different layers of merchandise.

Autopole

Autopole

AUTOPOLE is a telescopic, tension mounted, freestanding pole, secured with a simple lever movement. With a wide range of connectors and accessories that permit full flexibility and infinite visual solutions: it can be used to display, hold, and communicate with 360° potential.

The system's fundamental characteristic is the quickness with which it can be assembled without the need for tools. AUTOPOLE is available in its early, natural finish aluminum version to clear painted steel for a raw, sophisticated aesthetic. ALU's AUTOPOLE is one of the best-selling fixtures within the retail sector, and continues to be a product icon in the photographic world.
